

Answers to ½ Length Mock Boards Exam

1. Microglandular adenosis
2. Chondrosarcoma
3. Hyalinizing Trabecular Tumor
4. Candida Esophagitis
5. Adenomatoid Tumor
6. Sertoli-Leydig Cell tumor
7. Leukocytoclastic vasculitis
8. Adenocarcinoma
9. Peutz-Jeghers polyp
10. Pleomorphic Adenoma
11. Kikuchi-Fujimoto disease
12. Cryptococcal meningitis
13. Metanephric adenoma
14. Carcinoid tumor
15. Endometrial adenocarcinoma, endometrioid type
16. Invasive lobular carcinoma
17. Malignant melanoma
18. Hodgkin Lymphoma
19. Inflammatory Fibroid polyp
20. Phyllodes tumor
21. Papillary thyroid carcinoma
22. Congenital Hepatic fibrosis
23. Adenoid cystic carcinoma
24. Clear cell cribriform hyperplasia
25. Myxopapillary ependymoma
26. Complete hydatidiform mole
27. Malakoplakia
28. Negative
29. DCIS
30. Tenosynovial giant cell tumor, diffuse type
31. Angiosarcoma
32. Sessile serrated lesion
33. Invasive tubular carcinoma
34. Erythema nodosum
35. Aneurysmal bone cyst
36. Papillary elastofibroma
37. Fundic gland polyp
38. Schwannoma
39. CIN1
40. Myelolipoma
41. Papillary urothelial carcinoma
42. Prostatic adenocarcinoma, acinar type
43. Squamous cell carcinoma
